

SOLUTIONS THAT FIT™

COMPRESSOGRIP SHRINKERS

RESEARCHED AND DEVELOPED BY KNIT-RITE

EVERY ROLL IS QUALITY TESTED

CONSISTENT COMPRESSION

TESTED AND WIDELY ACCEPTED FOR 30+ YEARS

EFFICACY CLINICALLY TESTED
(REPRINTS AVAILABLE)

1. Apply the first layer.

2. Position the ring snugly.

3. Apply the second layer to a point of desired maximum compression.

Original Compressogrip
B/K Elastic Shrinker

Tapered
Compressogrip

Compressogrip
A/K Shrinker

THE ORIGINAL TUBULAR COMPRESSION PROSTHETIC SHRINKER

Invented by Knit-Rite, Inc., for control and prevention of edema following amputation surgery and for limb volumetric maintenance. Compressogrip Shrinkers assure controlled compression, ease of application and wearer acceptance.

TAPERED COMPRESSOGRIP

Tapered Compressogrip B/K Shrinkers are a new addition to the industry standard. Additional width at the top accommodates fuller thighs and reduces rolling and bunching behind the knee caused by too much compression above the knee.

COMPRESSOGRIP A/K SHRINKER

The Compressogrip A/K for transfemoral applications is clinically effective and easy to use and apply. It is lower cost than traditional shrinkers — fewer sizes fit more patients. Easy and affordable to keep on hand for same day delivery.
