Suggested Code L1951

**THUASNE**

# SpryStep®

DYNAMIC REINFORCED  
SPIRAL STRUT AFO

USING ADVANCED MODERN  
COMPOSITE FIBER TECHNOLOGY  
TO IMPROVE OUTCOMES  
IN ORTHOTIC SCIENCE.

## FEATURES AND BENEFITS

- Light weight, durable composite construction engineered with unique laminated characteristics to prevent fracture and breakage
- Material diversity offers strategic flexibility and stiffness to enhance performance and patient comfort
- Proprietary posterior lateral position of the strut increases patient compliance and energy return for activity reengagement
- High performing composites and low profile design maximize patient comfort, functionality and cosmetic finish
- Practitioner friendly and adjustable
