

Pediatric Formula™

Fillaauer®

Pediatric Formula™

The Formula foot is the ideal balance of flexibility and power. A first of its kind, the Pediatric Formula is a high-performance, customizable, pediatric foot that grows with the child. The long, lightweight carbon pylon provides critical energy return through the posterior attachment, while the compact shape of the ankle simplifies cosmetic finishing without hindering performance.

The Standard and Custom Pediatric Formula feet are transforming pediatric prosthetics for kids who require exceptional performance and flexibility. Let them be little. Let them play big!

Standard Product Features

- Posterior mount design provides ideal balance of flexibility and power
- Long, carbon-composite pylon delivers lightweight, dynamic response
- Full-split sandal toe offers maximum multiaxial function
- Pylon accommodates growth up to two additional foot plate sizes
- Fits a standard, sandal-toe foot shell

Custom Product Features

- All the benefits of the standard foot
- Slotted pylon allows up to 1 inch of vertical growth
- Simple height adjustment with included mounting bracket

Specifications

Weight rating: 125 lbs. (57 kg)

Foot size: 16 – 24 cm

Functional levels: K3 – K4

Product Weight: 9 – 11.6 oz. (255 – 330 g)

Pylon height: 16 in. (41 cm)—can be cut to 9 in. (23 cm)

Build height: 1.5 in. (3.8 cm)

Warranty

2 year warranty, manufacturing defects only. No trial period.
