

ENCORE™ prime

- Updated technology
- Broad spectrum of natural tones
- Innovative, high quality, durable

Introducing the Encore Prime Sleeve. To create our newest sleeve, we sourced high performance technical fabric in custom-dyed colors. This fabric delivers a better bond, meaning each sleeve retains critical elasticity for longer. The broader range of natural tones simplifies finding a natural match. Finally, we've dramatically increased the range of sizes that we offer - from five to more than 10, including several highly anticipated larger sizes. With more than 130 combinations, the Prime Sleeve delivers more choices than ever in an essential component.

| Active Gel | | Relax Gel | Color | Thickness | Size (cm) |
|--------------------------|----------------|---------------------------|-------|-----------|-----------|
| Highly responsive | Motion control | Comfortable and forgiving | | | |
| Designed for performance | | Freedom of motion | Tan | 2mm | 23 37 |
| | | Designed for relaxation | Brown | 3mm | 25 40 |
| | | | Black | | 27 43 |
| | | | | | 29 49 |
| | | | | | 31 55 |
| | | | | | 34 |
