

OPTI-SEAL[®]

**The Most Versatile
Suspension
System Available**

**Create your
own customized,
cost-effective sealing liner!**

 **esp**

OPTI-SEAL®

Just a Few of the Limitless Applications:

- Bond to your prosthetic liner of choice in ANY location.
- Bond to prosthetic socks to create your own sealing sock.
- Use to enhance socket fit and manage volume change during the transition from temporary to definitive prosthesis.
- Use Opti-Seal® with any of the industry leading ESP valves.
- Use with locking liners to reduce pistoning and rotation.
- May be worn directly on residual limb to enhance prosthetic suspension when no liner is used.

Quick and easy instructions!

Detailed description included with each Opti-Seal®.
