

INTRODUCING THE GERY...

a comfortable, re-engineered low K2 foot.

The newly re-designed GERY foot aims to provide lower level K2 users with the freedom they deserve.

- Greatly assists your patient's ability to ambulate with its lightweight design.
- Accommodates heel heights ranging from .2" to .8" (5mm to 20mm).
- Cleaned easily with water and is resistant to dirt thanks to its closed cells EVA foam.

GET BACK TO YOUR LIFE.

- Engineered specifically for the low level K2, AK & BK population. Rated up to 150kg / 330lbs.
- Re-engineered with a new core
- 1 Year warranty
- 100 % Waterproof
- Comfort thanks to its design that reduces residual limb pain. Lightweight thanks to its EVA structure \approx 30% lighter than a SACH foot! Easy step completion thanks to its profiled core.
- Comes with malleolar clip
