

NEW UNIVERSAL DESIGN:
Fits either left or right leg

PREMIUM J™

WITH CONFORMA HINGE

L1820

A simple and comfortable solution for patellofemoral pain and instability

- J-shaped silicon buttress forms a lateral wall to prevent subluxation and encourage proper alignment. Packaged with bilateral buttresses; simply remove one side to fit the left or right leg.
- Elastic, anterior straps control the patella to correct glide and tilt. May be positioned on the right or left.
- Also available without a hinge (AA4467).
- Available in sizes XS-5XL.
