

Silver Liner Sheath™

Designed to wear under any liner without compromising suspension!

Silver Liner Sheath with the unique advantage of **Xstatic** Silver for solutions to many of the problems common to many liner wearers.

Anti-odor -

inhibits bacteria growth, neutralizes ammonia proteins

Antimicrobial -

eliminates odor causing bacteria and fungus

All natural -

Safe and non-toxic. Contains no added chemicals

Thermodynamic -

cooler in summer, warmer in winter

Therapeutic -

high conductive performance for more comfort

Anti-Static -

has very high electrical conductivity

Silver Liner Sheaths are reinforced for greater wear resistance and durability. A unique mesh design stretches to conform to any shape while allowing ventilation. The top is shorter than our traditional sheaths, which allows the wearer to receive the full benefits of silver without interfering with the design characteristics of the liner.

Use and Care

Instructions:

Machine wash, gentle cycle, mild detergent, no bleach. Machine dry, gentle cycle, medium heat.

The perfect solution for amputees who are experiencing skin problems underneath a liner
