## CoolMax® Stretch Prosthetic Sock

Comfort SoftWick™ socks offer enhanced performance while keeping comfort a top priority. The **CoolMax** fibers wick moisture away from the skin to keep the wearer dry and comfortable, and keeps you cooler in summer and warmer in winter. The SoftWick™ sock is truly a high performance sock at a very competitive price!

### **Benefits of the Comfort SoftWick™ Sock include:**

- **CoolMax** fibers wick moisture away from the skin, keeping the wearer dry and comfortable
- Feels cooler in summer and warmer in winter
- Exceptional stretch
- Comfortable, soft and cushioned
- Resists shrinking, odor and mildew
- Machine washable
- Available with a knitted 3S hole

CoolMax® Stretch Prosthetic™

## HALF SOCK™

**The ideal solution for managing distal volume changes with a liner!**

### **Why pay for a whole sock when all you need is a Half Sock?**

If you have ever received that call late on a Saturday night, you will never forget it. You cut off an old sock and put a hole in the distal end so that you could fill in some volume distally on your patient's liner. Then the sock unraveled late on a Saturday night and your patient could not get out of their prosthesis, so they called you. Sound familiar?

The SoftWick Prosthetic Half Sock from Comfort Products is the solution to this problem with managing distal volume. The distal hole is knit right into the sock to ensure a proper fit, without unraveling, every time. The CoolMax® and Lycra construction stretches to accommodate a multitude of shapes. Four sizes ensures a proper fit for almost any application. The color band knit into each sock allows easy size identification.

SoftWick™ Half Sock™					
Sizes and Part Numbers					
Size	Band Color	Length	Top Width	Toe Width	Part Number
1	Black	3"	3"	2 1/2"	SW21
2	Gray	3"	3 1/2"	3"	SW22
3	Royal Blue	6"	4"	2 3/4"	SW23
4	Turquoise	6"	5 1/2"	3 1/2"	SW24

***Also available by Special Order without a hole!***
