Tamarack® Protection Socks

Utilizes Glidewear technology to create a slippery, low-friction zone that protects at-risk areas from the forces that cause diabetic foot ulcers, calluses, blisters and other painful skin damage.

Available in four different models:

- Heel/Ankle
- Midfoot
- Forefoot
- Partial foot

Each model features SmartKnit® non-binding sock technology that accommodates swelling (edema).

MORE ABOUT
GLIDEWEAR®
FROM TAMARACK®

GlideWear dual-layer fabric glides smoothly against itself to absorb friction and shear forces, and protect skin.
